# Tips for using the online application.

---

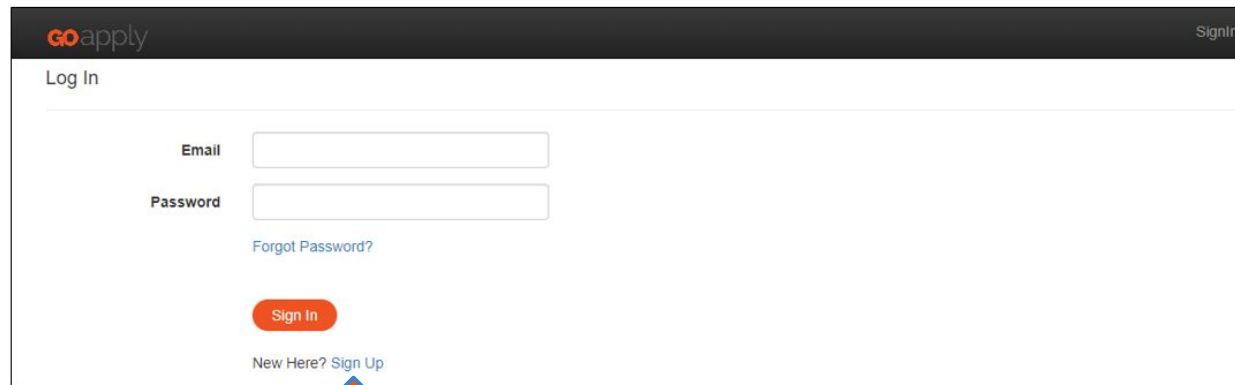

- You can click ***Save & Continue*** or click the ***Pages*** drop down to move to another page.
- To navigate back to the main menu, click ***Applicant*** at the top of the screen.
- **A red asterisk (\*) indicates a required field.** Applicants will be able to move from page to page without filling in a required field; however, they will be unable to submit an application until all the required fields are filled in. When Applicants click the submit button, a box will appear indicating any required fields that were not filled in.
- **We recommend not entering unique symbols such as &, \*, %, or #.** While they can be entered and will not be a problem with application submission, they may render different on the .pdf report.
- **Inactivity:** If you have not saved any information for ***60 minutes*** and then try to save or enter information, you will get a page error. Any unsaved information will be lost. Simply click the back button and sign in.

# Grant Writing Tips

---

## **Present a logical solution to your problem:**

It's important to think of your proposal as a story with a beginning (problem or opportunity), middle (solution is your program), and the end (results are your outcomes).

## **Tell the same story in the budget and proposal narrative:**

The project budget is another opportunity to tell your story! Many funders say that the budget is the first thing they read.

## **Convince the funder you know what you're doing:**

The proposal should show that you're aware of the need in your community and a strong response. After reading the proposal, the funder should feel confident that your organization would be a responsible recipient of the funds.
